

Cir-Q Tonic®

PRODUCT SUMMARY

Every day we are exposed to electricity, radiation, and toxins that dehydrate, overwhelm and stress the body. Skin gets inflamed. Organs get inflamed. The kidneys and the bladder become overwhelmed with toxins. These eventually back up into the body; the immune system responds by working overtime. This can result in inflammatory issues such as pancreatitis, colitis, diverticulitis, nephritis, cystitis, retinitis, cellulitis, etc. We call this the "itis" list.

Cir-Q Tonic is a vegetarian supplement formulated to nourish and cool all the systems of the body. The minerals and nutrients assist the liver, kidneys, and bladder in releasing toxins so they can heal. This in turn releases stress on the immune system, bringing it back into optimal balance.

Cir-Q Tonic also provides basic nutrition the body needs to nourish the eyes, skin, hair, nails, and organ tissues. It is a great choice for children. Use Cir-Q Tonic as a one-a-day to keep all the systems of the body balanced and healthy.

EXPERIENCE THE DIFFERENCE:

VerVita nutrition supports the body functioning as a whole; it nourishes and balances the energy flowing through every structure, organ, gland, and cell. A healthy rhythm and function are created as the formulas are designed to synergistically stimulate/relax and push/pull.

KEY INGREDIENTS OF CIR-Q TONIC®

Vitamins: Methylated B vitamins help maintain a healthy heart and immune system. **Folate** is necessary for healthy cells; DNA synthesis and repair.

Vitamin D3 supports strong bones and teeth, maintains a stable nervous system, strengthens the immune system and maintains normal heart rhythm.

Vitamins A and C regulate and support the immune system. They also support the lining of the eyes, lungs, respiratory, urinary, and intestinal tract.

Antioxidants: Bioflavonoids (citrus) and grape seed are powerful antioxidants that combat free radicals, protecting and strengthening veins, arteries, eyes, and skin.

Enzymes: CoQ 10 is found in the cellular “power plants” of the body that generate energy. The heart, liver, and kidneys store CoQ10 to meet their high energy demands. Smoking, alcohol, stress, aging, chronic illness, beta-blockers, and cholesterol lowering drugs deplete CoQ10 stores in the body.

Herbs: Echinacea stimulates the immune system, reduces inflammation, and helps heal wounds. **Beet Root** contains vitamins and minerals that assist in making new blood and supporting the immune system. **Buckwheat** (despite its name it is not a grass or wheat) strengthens capillary walls. The seed of this fruit contains essential fatty acids, vitamin E constituents, and rutin. **Silicon from Horsetail Rush** supports the bones, kidneys and immune system.

Minerals and Trace Elements: Cir-Q Tonic contains trace elements such as **iron** to support healthy blood, and **vanadium** and **rubidium** to support and balance brain function. **Molybdenum** assists the kidney to process waste and neutralizes toxins in food. **Manganese** plays a role in calcium absorption, blood sugar regulation, and normal brain/nerve function.
